

hydroven® 1 & 3

Garment Measuring Guide

HUNTLEIGH

A MEMBER OF THE ARJO FAMILY

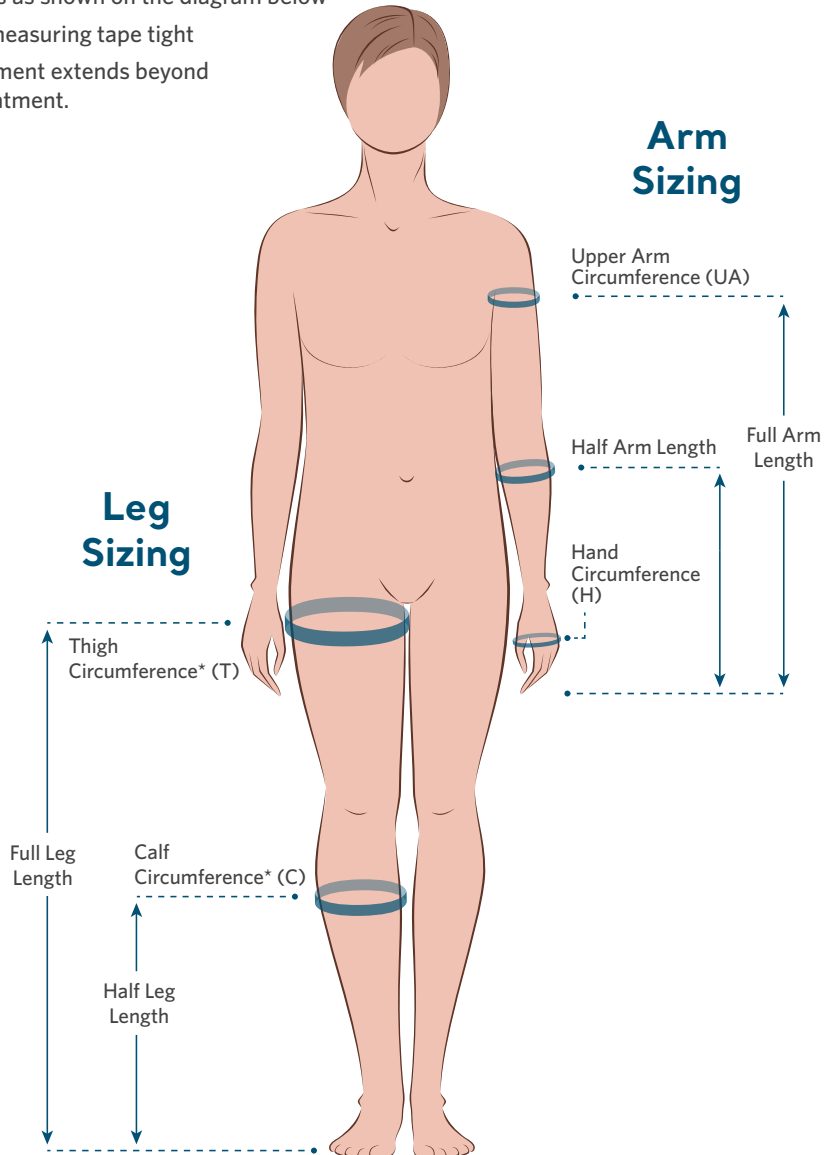

Garment Measuring Guide

The following guide is intended as an aid to help the user select the correct size garment.

The treatment type will determine the garment type e.g. hydroven® 1 for uniform compression or hydroven® 3 for graduated pressure.

When determining the correct size garment:

- Remove any bandaging, stockings or bulky dressings
- Measure the points as shown on the diagram below
- DO NOT pull the measuring tape tight
- Make sure the garment extends beyond the area under treatment.

*Measurements should be made at the widest point on the calf and thigh.

Hydroven 3 Arm

Three Chamber Arm Garments

Order Code	Type	Length (L)	Shoulder Circumference (S)	Hand Circumference (H)
5103A68	Full Arm	68cm	62cm	44cm
